

# ABOUT US

## My Feet Are Made of Stardust

My feet are made of stardust and I've danced with the stars,  
The moon was my dancefloor and my disco ball was Mars.  
I've chased meteors and comets – Big Dipper was my net,  
Orion was my best friend and Little Bear was my pet.

My eyes are made of stardust and I use them to explore,  
The majestic mountains, starlit skies, fields and forest floors.  
I see the smiles of family and friends sharing joy and love,  
The laughter of creation shines like sunbeams from above.

My fingers are made of stardust to create and hold hands,  
They glitter as they plant a tree or write exciting plans.  
They were designed to help me care for the world around me,  
Picking up litter and helping to protect the sea.

We all are made of stardust and our atoms are the same,  
Though our skins have different colours and our countries have different names.  
Poverty and war are wrong and it's time to make things right,  
We are all connected – there is no good reason to fight.

Our feet are made of stardust, we can find a shining solution,  
To put an end to homelessness, racism and pollution.  
Our feet are made of stardust and we once danced together in space,  
Let's live and learn together now to make the world a better place.
